* *Optional:* Dean's List, Cum Laude, Relevant Coursework, Thesis Title, Major Projects

[Previous Degree Name, e.g., Bachelor of Science] in [Your Major]

[Previous University Name], [City, State]

[Graduation Month, Year]

****CAREER GOAL****

Self-reflection for your resume: Your "Career Goal" statement will be integrated into the "Professional Summary" to ensure it's concise and immediately hooks the reader (and ATS). Here's how you can phrase it:

"Seeking to leverage [your key skills/experience] to contribute to [type of company/industry] and achieve [your long-term career aspirations, e.g., drive innovation, lead strategic initiatives, develop impactful products]."

****KEY ATS-FRIENDLY TIPS FOR CUSTOMIZATION:****

1. ****Keywords are King:**** Go through job descriptions for roles you're interested in. Identify common keywords (skills, tools, certifications, industry terms) and integrate them naturally throughout your resume, especially in your "Professional Summary" and "Skills" section.

2. ****Standard Headings:**** Use clear, common headings like "EXPERIENCE," "SKILLS," "EDUCATION." ATS systems are programmed to recognize these.

3. ****Simple Formatting:****

* ****Font:**** Stick to professional, easy-to-read fonts like Arial, Calibri, Times New Roman, or Georgia. Use 11-12pt for body text and 14-16pt for your name and section headings.

* ****No Graphics or Tables:**** Avoid images, logos, text boxes, or complex tables. These can confuse ATS.

* ****Standard Bullets:**** Use simple round or square bullet points.

* ****Consistent Formatting:**** Ensure consistent spacing, font sizes, and bolding throughout.

4. ****Action Verbs & Quantifiable Results:**** Every bullet point under experience and projects should start with a strong action verb (e.g., Developed, Managed, Implemented, Led, Achieved, Optimized, Designed). Quantify your achievements with numbers, percentages, or frequencies whenever possible (e.g., "Increased sales by 15%," "Managed a team of 5," "Reduced costs by \$10,000").

5. ****Reverse-Chronological Order:**** List your experience and education from most recent to oldest.

6. ****File Type:**** Always save and submit your resume as a ****PDF**** unless the application specifically requests another format (like .docx). PDFs preserve your formatting across different systems.

7. ****Proofread Meticulously:**** Typos and grammatical errors are instant red flags for both ATS and human recruiters. Read it backwards, use a spell checker, and ask someone else to review it.

8. ****LinkedIn Profile:**** Make sure your LinkedIn profile is up-to-date and consistent with your resume. Include its URL on your resume.

Good luck! Let me know if you have any other questions.
